

IPS PVC FLEX HOSE

Landscape Products IPS PVC Flex Hose provides more flexibility and shock resistance than rigid PVC pipe. Ideal for use in landscaping and agriculture.

- 💧 Connect drip laterals to rigid PVC submains.
- 💧 Repair breaks in rigid PVC pipe.
- 💧 Maneuver around obstacles.
- 💧 Use as flexible swing joints to prevent damage to rigid pipes.
- 💧 Make tight bends without kinking or cracking.
- 💧 Use standard PVC fittings.
- 💧 Available in 1/2", 3/4" and 1" I.P.S. sizes.
 - 💧 1/2" - 0.546" I.D. x 0.840" O.D.
 - 💧 3/4" - 0.742" I.D. x 1.050" O.D.
 - 💧 1" - 0.957" I.D. x 1.315" O.D.
- 💧 1/2" & 3/4" available in 100' & 200' rolls
- 💧 1" available in 100' rolls
- 💧 All products also available in pre-cut lengths
- 💧 Use cement and primer especially formulated for flex to rigid PVC

Note: Not recommended for use in constant pressure situations. Maximum operating pressure should not exceed 60 PSI @ 73°F. Not for use with hot water or be exposed to high heat.
